Re: RCE application for "Method and Apparatus for
Text Entry Based on Trigger Sequences", Application Control Number 10/605,157.
Examiner: Kim Huynh
Art Unit 2182
Mail Stop RCE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

October 12, 2005

This RCE application is filed in response to an Ex parte Quayle action mailed September 15, 2005.

The response includes:

- 1) Amended claims:
 - a) Claim 1 is amended following the examiner's suggestion.
 - b) Claim 17, originally ordered by the Examiner to be cancelled, is amended in the RCE to be dependent on Claim 1.

The amended Claim 17 is allowable since Claim 1 is allowable.

The amendment finds support in the specification in paragraph 0037 (page 9), Figs 21-23, paragraphs 0131-0136 (pages 29-31).

- 2) Replacement Figs 7 and 9 each marked "Replacement Sheet".

The PTO is authorized to charge Eatoni's deposit account 501758 for all fees arising from this request.

Respectfully Submitted,

Howard Gutowitz, inventor
and President of Assignee Eatoni Ergonomics, Inc.
